Digimap for Schools resources: Progression map to show how you might develop mapping skills in Primary

	Using and interpreting	Position and orientation	Drawing	Symbols	Perspective & scale	Digital map making
Year 1 and 2	<p>I can find information on aerial photographs.</p> <p>I know that maps give information about the world (where and what?). I can follow a route on a prepared map.</p> <p>I can recognise simple features on maps such as buildings, roads and fields.</p> <p>I recognise that maps need a title. I can use maps to talk about everyday life for example, where I live, journey to school, where places are in a locality.</p> <p>I can begin explaining why places are where they are.</p>	<p>I am beginning to use directional vocabulary. I can say which direction N,S,E,W is for example, using a compass in the playground.</p> <p>I know which direction N is on an Ordnance Survey map.</p>	<p>I can draw a simple map (real or imaginary place) for example, freehand maps of gardens, watery places, route maps, places in stories.</p>	<p>I can use symbols on maps (own and class agreed symbols). I know that symbols mean something on maps.</p> <p>I can find a given Ordnance Survey symbol on a map with support. I am beginning to realise why maps need a key.</p>	<p>I can look down on objects and make a plan for example, on desk, high window to playground.</p> <p>I can draw objects to scale (for example, on table or tray using squared paper 1:1 first, then 1:2 and so on).</p> <p>I can use large scale, vertical aerial photographs.</p> <p>I know that when you 'zoom in' you see a smaller area in more detail.</p>	<p>I can find places using a postcode or simple name search.</p> <p>I can add simple information to maps for example, labels and markers.</p> <p>I can draw around simple shapes and explain what they are on the map for example, houses.</p> <p>I can use the measuring tool with support to show distance for example, my house to school, to the shops.</p> <p>I can zoom in and out of a map.</p> <p>I can draw a simple route.</p> <p>I can highlight areas.</p> <p>I can add an image to a map.</p>
	<p>Work confidently with: Large scale street maps and large scale Ordnance Survey maps (1:1250, 1:2500), aerial photographs, games with maps and globes.</p> <p>Have experience: of a range of different maps for example, tourist brochure, paper maps, storybook maps, Ordnance Survey digital maps at different scales and globes and atlases.</p> <p>Introduce: simple grids, four cardinal points, basic digital mapping tools, zoom function of digital maps.</p> <p>Context: focus on the local scale-- home, school, neighbourhood, everyday lives (their own and others), work in the school grounds; global scale – world maps, globes and through story.</p>			<p>Suggested Digimap for Schools Activities (* Ks1-2)</p> <p>Letter to our school</p> <p>Where do I live?</p> <p>How can we get to Grandma's safely?</p> <p>What's the quickest way to school?</p> <p>My geography glasses</p> <p>Who goes to school by boat?*</p> <p>Where does our milk come from?*</p> <p>Where do I go in a week?*</p> <p>Capital Stops*</p> <p>My Dream Island*</p> <p>The Magic Telescope*</p>

	Using and interpreting	Position and orientation	Drawing	Symbols	Perspective & scale	Digital map making
Year 3 and 4	<p>I can use atlases, maps and globes. I can use large scale maps outside. I can use maps at more than one scale.</p> <p>I can make and use simple route maps.</p> <p>I can locate photos of features on maps.</p> <p>I can use oblique and aerial views. I can recognise some patterns on maps and begin to explain what they show.</p> <p>I can give maps a title to show their purpose.</p> <p>I can use thematic maps. I can explain what places are like using maps at a local scale. I recognise that contours show height and slope.</p>	<p>I can use simple grids. I can give direction instructions up to 8 cardinal points.</p> <p>I can use 4-figure coordinates to locate features. I know that 6-figure Grid References can help you find a place more accurately than 4-figure coordinates.</p>	<p>I can make a map of a short route with features in correct order. I can make a map of small area with features in correct places.</p>	<p>I can use plan views regularly. I can give maps a key with standard symbols. I can use some Ordnance Survey style symbols.</p>	<p>I can use maps and aerial views to help me talk about for example, views from high places I can make a simple scale plan of room with whole numbers for example, $1 \text{ sq.cm} = 1 \text{ square tile on the floor moving onto } 1\text{cm}^2 = 1\text{m}^2$.</p> <p>I can use the scale bar to estimate distance. I can use the scale bar to calculate some distances. I can relate measurement on maps to outdoors (using paces or tape).</p>	<p>I can use the zoom function to locate places.</p> <p>I can use the zoom function to explore places at different scales.</p> <p>I can add a range of annotation labels and text to help me explain features and places.</p> <p>I can highlight an area on a map and measure it using the Area Measurement Tool. I can use grid references in the search function</p> <p>I can use the grid reference tool to record a location. I can highlight areas within a given radius.</p> <p>I can add photographs to specific locations.</p>
	<p>Work confidently with: Large scale street maps and large scale Ordnance Survey maps (1:1250, 1:2500), aerial photographs, oblique and bird's eye views, games with maps and globes, Ordnance Survey maps 1:1250, 1:2500 and 1:10 000, 4-figure coordinates.</p> <p>Have experience: of a range of different maps for example, tourist brochure, paper and digital maps, storybook maps, atlases, Ordnance Survey paper and digital maps at different scales, 6-figure coordinates. Introduce: what 6-figure Grid References mean, 8 cardinal points, greater independence in using digital mapping tools.</p> <p>Context: a range of places in the wider locality and in contrasting localities, fieldwork in the wider locality.</p>	<p>Suggested Digimap for Schools Activities</p> <ul style="list-style-type: none"> Treasure Hunt Picture Detectives Artful Maps Patterns of land use Flying High: White –Tailed Eagles Teifi Travels A Taste of Scotland Landscape Fingerprints 				

Digimap for Schools

	Using and interpreting	Position and orientation	Drawing	Symbols	Perspective & scale	Digital map making
Year 5 and 6	I can relate maps to each other and to vertical aerial photographs. I can follow routes on maps saying what is seen. I can use index and contents page of atlas. I can use thematic maps for specific purposes. I know that purpose, scale, symbols and style are related. I can appreciate different map projections.	I can use 4 and 6-figure coordinates to locate features. I can give directions and instructions to 8 cardinal points. I can align a map with a route. I can use latitude and longitude in an atlas or globe.	I can make sketch maps of an area using symbols and key. I can make a plan for example, garden, play park; with scale. I can design maps from descriptions. I can draw thematic maps for example, local open spaces. I can draw scale plans.	I can use agreed and Ordnance Survey symbols. I appreciate maps cannot show everything. I can use standard symbols I know 1:50.000 symbols and atlas symbols.	I can use a range of viewpoints up to satellite. I can use models and maps to talk about contours and slope. I can use a scale bar on all maps. I can use a linear scale to measure rivers. I can describe height and slope using maps, fieldwork and photographs. I can read and compare map scales. I can draw measured plans for example, from field data.	I can find 6-figure grid references and check using the Grid Reference Tool. I can combine area and point markers to illustrate a theme. I can use maps at different scales to illustrate a story or issue I can use maps to research factual information about locations and features. I can use linear and area measuring tools accurately.
More Able Y6	I can interpret distribution maps and use thematic maps for information I can follow a route on 1:50 000 Ordnance Survey map; I can describe and interpret relief features.					
<p>Work confidently with: Large scale street maps and large scale Ordnance Survey maps (1:1250. 1:2500); aerial photographs, oblique and bird's eye views, games with maps and globes, Ordnance Survey maps 1:1250, 1:2500, 1:10 000, 1:25 000. 1:50 000 4 and 6-figure coordinates.</p> <p>Have experience: of a range of different maps for example, tourist brochure, paper and digital maps, storybook maps, atlases, Ordnance Survey paper and digital maps at different scales, 6-figure coordinates</p> <p>Introduce: what 6 figure Grid References mean and how to calculate them.</p> <p>Context: a range of places at different scales and with different themes, fieldwork in the wider and distant locality.</p>				<p>Suggested Digimap for Schools Activities</p> <p>Fantasy Maps Weather Warning! Coastal Mysteries Landscape Poetry Lighthouse for Sale My Top Tourism Trail It's a Rubbish Footprint! Extreme GB Map Detectives Emergency Rescue</p>
